PROFESSIONAL EXPERIENCE

Grassdoor — **Remote**
UX/Graphic Designer — Oct 2025 - Present

- I specialize in UX/UI Design and Product Experience, creating seamless digital interfaces for SaaS dashboards, web apps, and B2C ecommerce platforms. My process spans from crafting user flows, wireframes, and high-fidelity prototypes to conducting user research, A/B testing, and refining designs through data-driven insights. I collaborate closely with product managers, developers, and other stakeholders to align user needs with business objectives, while maintaining robust design systems, component libraries, and UI guidelines. My approach focuses on responsive, accessible, and mobile-first experiences that enhance usability and engagement.
- Alongside product design, I lead Brand and Communication Design initiatives, developing CRM email campaigns, automated workflows, and marketing assets for product launches, feature updates, and promotional campaigns. I also create presentations, pitch decks, and sales collaterals, ensuring consistent brand identity and visual coherence across all digital and customer touchpoints.
